

# How to get Scheduled Jobs information Using SOQL

All the scheduled jobs are stored in **CronTrigger** object in Salesforce.

## SOQL Query

```
SELECT ID, CronExpression, CronJobDetail.Name, CronJobDetailId, EndTime, NextFireTime, PreviousFireTime, StartTime, State, TimesTriggered FROM CronTrigger
```

## Result

Quick Query Execute SOQL, SOSL or Tooling API queries. toggle toolbar

```
1 SELECT ID, CronExpression, CronJobDetail.Name, CronJobDetailId, EndTime, NextFireTime, PreviousFireTime, StartTime, State, TimesTriggered FROM CronTrigger
```

Line: 1 Column: 155
