

# How to delete Message with Bulk API

## Step 1:

- Go to click **Setup** => **Permission Sets** click button **New** to create permission sets, please see an example on screenshot below:

The screenshot shows the Salesforce Setup interface for creating a new Permission Set. The left sidebar contains navigation links: Setup, Home, Object Manager, Users, Permission Sets, Process Automation, Custom Code, and Custom Permissions. The main content area is titled 'Permission Sets' and 'Create'. It features a search bar and a 'Help for this Page' link. The 'Enter permission set information' section includes fields for Label, API Name, and Description, with a 'Session Activation Required' checkbox. The 'Select the type of users who will use this permission set' section includes a 'Who will use this permission set?' dropdown and a 'License' dropdown. The 'License' dropdown is currently set to 'Salesforce'. The 'Save' button is highlighted in red.

The result after click button **Save** we get new a permission set

Click on **System Permissions** link and then click button **Edit** to checkbox **Bulk API Hard Delete** to query messages for deletion then click button **Save**.

|  | <b>Named Credential Access</b><br>Permissions to authenticate against named credentials                   |
|  | <b>Custom Permissions</b><br>Permissions to access custom processes and apps                              |
|  |   |

### System

|   |   |
|---|---|
| Settings that apply across all apps, such as record and user management<br><a href="#">Learn More</a> | <b>System Permissions</b><br>Permissions to perform actions that apply across apps, such as "Modify All Data" |
|   | <b>Service Providers</b><br>Permissions that let users switch to other websites using single sign-on.         |

The screenshot shows the Salesforce Setup interface. The left sidebar contains navigation links: Setup, Home, Object Manager, Users, Permission Sets, Process Automation, Next Best Action, Custom Code, and Custom Permissions. The main content area is titled 'Permission Sets' and shows the 'System Permissions' section. A table lists various system permissions, with 'Bulk API Hard Delete' highlighted by a red box. The table has columns for Permission Name, Enabled, and Description.

| Permission Name                          | Enabled                             | Description   |
|--|-------------------------------------|---|
| Access Activities                        | <input type="checkbox"/>            | Access tasks, events, calendar, and email.  |
| Access Community Management              | <input type="checkbox"/>            | Access pages and dashboards available in Community Management.  |
| Access Libraries                         | <input type="checkbox"/>            | Access libraries.   |
| Add People to Direct Messages            | <input type="checkbox"/>            | Lets a user add others to direct messages the user is in.   |
| Allow Access to Customized Actions       | <input type="checkbox"/>            | Show users customized actions from the page layout editor. Enabled by default for all profiles except Chatter Free User, Chatter External User, Cloud Integration User, and any custom profiles cloned from them. |
| Allow Inclusion of Code Snippets from UI | <input type="checkbox"/>            | Allow users to post code snippets from the UI where available.  |
| Allow sending of List Emails             | <input type="checkbox"/>            | Allow users to create, edit and send List Emails  |
| Allow user to access privacy data        | <input type="checkbox"/>            | Allow user to access privacy data.  |
| Apex REST Services                       | <input type="checkbox"/>            | Allow access to Apex REST services  |
| API Enabled                              | <input type="checkbox"/>            | Access any Salesforce.com API.  |
| Assign Topics                            | <input type="checkbox"/>            | Assign existing topics to feed items. Remove topics from feed items.  |
| Author Apex                              | <input type="checkbox"/>            | Create Apex classes and triggers.   |
| <b>Bulk API Hard Delete</b>              | <input checked="" type="checkbox"/> | Delete records in the Bulk API without storing them in the Recycle Bin.   |
| Can Approve Feed Post and Comment        | <input type="checkbox"/>            | Lets users control the visibility of content to other users by updating the status of a feed item or comment from pending review to published or from published to pending review.                                |
| Change Dashboard Colors                  | <input type="checkbox"/>            | Choose dashboard color theme and palette.   |

Click button **Edit Assignments** to assign permission sets

The screenshot displays the Salesforce Setup interface. The top navigation bar includes the Salesforce logo, a search bar labeled "Search Setup", and several utility icons. The left sidebar shows the "Setup" menu with "Home" and "Object Manager" options. Below this, a "Quick Find" search bar is present. The sidebar also lists navigation links: "Setup Home", "Lightning Experience Transition Assistant", "Lightning Usage", "ADMINISTRATION", "Users", "Permission Sets", "Profiles", "Public Groups", "Queues", "Roles", "User Management Settings", and "Users". The main content area is titled "Users" and contains five sections: "Permission Set Assignments" (with an "Edit Assignments" button highlighted by a red arrow), "Permission Set Assignments: Activation Required" (with an "Edit Assignments" button), "Permission Set License Assignments" (with an "Edit Assignments" button), "Personal Groups" (with a "New Group" button), and "Public Group Membership" (with a "New Group" button). Each section also includes a "Help" link.

Select **permission sets** then add into Enabled Permission Sets and then click button **Save** to finish.
