

# VALIDATION RULES AND ROLL-UP SUMMARY FIELDS

Wednesday 1 January, 2020

Published in [Not-So-Secret Diary](#)

---

Maybe you all know it but it took me by surprise. I know order of execution but realized it some times ago. Validation Rules run before Roll-Up fields calculation. If you use roll-up summary fields in the validation rules then be ready - it can work unexpectedly. Validation rules will be executed with updated data only next time when someone update the record. Be careful when using roll-up summary fields in the validation rules.
